

Lane Peace Center and Beyond Toxics present

An Electronic Silent Spring

a talk by Katie Singer

Thursday, April 9, 10-11:45 am

Lane Community College Main Campus Longhouse*

20 Years of Breaking Telecom News Rarely Covered by the Media: A Press Release

In 1996 Congress passed the Telecommunications Act, preventing any health or environmental concern from interfering with the placement of a cell tower. Medical journalist and author **Katie Singer** will report on legal developments, impacts on human health and wildlife, and the erosion of community rights occurring over the 20 years this law has been in effect

Radio-frequency meters will be available for anyone wanting to test their cell phone's electromagnetic radiation emissions

www.ElectronicSilentSpring.com

Copies of *An Electronic Silent Spring* will be available after the event

*4000 E 30th Avenue, Parking Lot A (West), Bldg. 31. For more info: almquistk@lanecc.edu
